-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --
Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 1 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Interference

Applicant has suggested an interference pursuant to 37 CFR 41.202(a)(1) and 10.23(c)(7) in a communication filed on January 23, 2006, stating that new claim 75 of the instant application is identical to currently pending claim 1 of US application serial No. 10/773,897, filed 02/06/04, naming Duncan Kerr and Steve Hotelling as inventors. While Applicant has provided sufficient information to identify the application with which the applicant seeks an interference and the claim the applicant believes interfere, the applicant failed to propose one or more counts, and show how the claim corresponds to one or more counts on the one hand. On the other hand, Applicant failed for each count to provide a claim chart comparing the claim of each party corresponding to the count and show why the claim interferes within the meaning of section 41.203(a), explain in detail why the applicant will prevail on priority, if a claim has been added or amended to provoke an interference, provide a claim chart showing the written description for the claim in the applicant's specification, and for each constructive reduction to practice for which the applicant wishes to be accorded benefit, provide a chart showing where the disclosure provides a constructive reduction to practice within the scope of the interfering subject matter.

Election/Restrictions

Restriction to one of the following inventions is required under 35 U.S.C. 121:

- I. Claims 1-14, 18-20, 34-47 and 51-53, drawn to a computer system controlling a LED illumination device based on received information, classified in class 315, subclass 292.
- II. Claim 75, drawn to a computing device with indicator assembly displaying indicators, classified in class 704, subclass 276.

The inventions are independent or distinct, each from the other because:

Inventions I and II are related as combination and subcombination. Inventions in this relationship are distinct if it can be shown that (1) the combination as claimed does not require the particulars of the subcombination as claimed for patentability, and (2) that the subcombination has utility by itself or in other combinations (MPEP § 806.05(c)). In the instant case, the combination as claimed does not require the particulars of the subcombination as claimed because the combination addresses the control of color changes of the illumination device while the subcombination addresses an indicator indicating by displaying some events. The subcombination has separate utility such as a billboard.

Because these inventions are independent or distinct for the reasons given above and have acquired a separate status in the art in view of their different classification, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).

Applicant is reminded that upon the cancellation of claims to a non-elected invention, the inventorship must be amended in compliance with 37 CFR 1.48(b) if one or more of the currently named inventors is no longer an inventor of at least one claim remaining in the application. Any amendment of inventorship must be accompanied by a request under 37 CFR 1.48(b) and by the fee required under 37 CFR 1.17(i).

Any inquiry concerning this communication or earlier communications from the examiner should be directed to Haissa Philogene whose telephone number is (571) 272-1827. The examiner can normally be reached on 8:30 A.M.-6:00 P.M..
